PROFESSIONAL SUMMARY

Software Developer with hands-on experience in developing enterprise web applications using ASP.NET MVC, C#, SQL Server, and Entity Framework. Skilled in CargoWise customization, report development, SQL query optimization, and system integration to deliver reliable business solutions. Experienced in building responsive web applications, implementing CRUD operations, optimizing application performance, and resolving production issues. Proficient in Python, Power BI, SQL, and data analysis for business intelligence and reporting. Strong foundation in Object-Oriented Programming (OOP), REST APIs, MVC architecture, and Agile software development practices, with a passion for building scalable, maintainable, and high-quality software solutions.

TECHNICAL SKILLS

Programming Languages: Python, C#, SQL, JavaScript, HTML5, CSS3

Frameworks & Technologies: ASP.NET MVC, .NET Framework, Entity Framework, Razor Views, Bootstrap, REST APIs

Databases: SQL Server, PostgreSQL, MySQL

Developer Tools: Visual Studio, VS Code, Git, GitHub

Data Analytics & BI: Power BI, Tableau, Microsoft Excel, DAX, Data Analysis, Data Visualization

Domain Knowledge: CargoWise, System Integration, Report Customization, SQL Query Optimization

PROFESSIONAL EXPERIENCE

Software Developer Nov 2025 – Present
E-Datapings Business Analytics Pvt. Ltd.

- Developed and customized CargoWise reports and enterprise applications using ASP.NET MVC, C#, and SQL Server to support logistics and business operations.
- Designed SQL Server queries, stored procedures, and optimized database performance.
- Collaborated with cross-functional teams to deliver client-specific business solutions.
- Diagnosed and resolved production issues through application debugging and SQL query optimization, improving application stability.
- Participated in application deployment, testing, and code reviews while following software development best practices.
- Worked closely with cross-functional teams to analyze business requirements and deliver scalable enterprise software solutions.

PROJECTS

Zephyrzz Client Management System | ASP.NET MVC, C#, SQL Server

- Developed an enterprise client management system using ASP.NET MVC, C#, Razor Views, and SQL Server.
- Implemented CRUD operations, form validation, and SQL Server database integration.
- Built responsive interfaces using HTML, CSS, JavaScript, and Bootstrap.
- Improved application performance through debugging and query optimization.

Amazon Sales Dashboard | Power BI, SQL, Excel, DAX

- Designed an interactive Power BI dashboard to analyze sales performance, revenue trends, and product profitability.
- Performed data cleaning and transformation using Power Query and SQL.
- Developed DAX measures and KPIs to provide actionable business insights.
- Created dynamic reports with filters, slicers, and visualizations for decision-making.

Blockchain Voting System | React.js, Node.js, PostgreSQL, Web3, MetaMask

- Developed a decentralized online voting system using Blockchain technology.
- Integrated MetaMask wallet authentication for secure user verification and voting transactions.
- Built the frontend using React.js and backend services using Node.js.
- Managed voter and election data using PostgreSQL and implemented secure blockchain-based vote recording.

EDUCATION

Teerthanker Mahaveer University, Moradabad
Bachelor of Technology (B.Tech) – Computer Science & Engineering
2021 – 2025 | CGPA: 8.5/10

Gautam Rishi Inter College, Agra
Senior Secondary (Class XII)
2020 | 71%

CERTIFICATIONS

- CargoWise Certified Professional (CCP)
- Python Training (IIT Bombay)
- Python Development Training – Vervegen Tech
- Certificate of Excellence in Coding Ninjas
